

GROUP ACCIDENTAL DEATH AND DISMEMBERMENT INSURANCE

Unions have made great strides to ensure safety and productivity in the union workplace. Still, accidents happen and union members need protection. Whether an accident happens at work or away, Accidental Death and Dismemberment (AD&D) insurance provides members with the financial support they need during a stressful time.

These kinds of unforeseen events are exactly why The Union Labor Life Insurance Company (Union Labor Life) was founded. Union families needed protection against loss, and we stepped in to deliver the solution. Since we offered our first life insurance product to union members in 1927, we have been developing products that protect the financial stability and safety of the American worker. Today, Union Labor Life offers AD&D along with other products that help secure the future of union members and their families.

PLANS DESIGNED FOR THE UNION WORKPLACE

The Union Advantage: Double Benefit

With Union Labor Life, the standard benefit is doubled for union members should a fatal accident occur in the workplace or while commuting to or from work. The way we see it, union members who spend their lives working to provide stability for their families should have extra protection if a work-related accident occurs.

The Union Advantage: Strike Waiver of Premium (Not available in all states)

Union Labor Life offers to waive the plan premium for up to one year during a lawful strike authorized by the union or when union members are locked out as a result of a labor dispute exceeding 30 days. Only a company so focused on labor would support the right to strike without compromising the protection members deserve.
